2003													
2004													
2005													

- D. **Purpose of Use** – Specify number of acres irrigated, stock watered, persons served, etc.

Irrigation (240,900 g.) 64 1/2 acres; Stockwatering _____; Domestic yes (g.)

Other (specify) _____

- E. **Changes in Method of Diversion** – Describe any changes in your project since your previous statement was filed.
 (New pump, enlarged diversion dam, location of diversion, etc.)

- F. Please answer only those questions below which are applicable to your project.

1. **Conservation of water**

- a. Are you now employing water conservation efforts? YES NO
 Describe any water conservation efforts you have initiated: _____

- b. If you are claiming credit for water conservation under section 1011 of the Water Code for your claimed pre-1914 appropriative right, please show the amount of water conserved:

Reduction in Diversions:

Year _____ (AF/MG) Year _____ (AF/MG) Year _____ (AF/MG)

Reduction in consumptive use:

Year _____ (AF/MG) Year _____ (AF/MG) Year _____ (AF/MG)

I have data to support the above surface water use reductions due to conservation efforts. YES NO

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include: (1) Statements of Water Division and Use, (2) Information Pertaining to Water Rights in California, and (3) Appropriaition of Water in California.

StateMENTS OF WATER DIVERSION AND USE MUST BE HELD BY PRE-1994 APPROPRIATIVE WATER USERS AS SET FORTH IN WATER CODE SECTION 3100 WITH SPECIFIC EXCEPTIONS. THE FILING OF A STATEMENT (1) PROVIDES A RECORD OF WATER USE, (2) ENABLES THE STATE TO NOTIFY SUCH USERS IF SOMEONE PROPOSES A NEW APPROPRIATION EXCEPTIONS. THE FILING OF A STATEMENT (3) ASSISTS THE STATE TO DETERMINE IF ADDITIONAL WATER IS AVAILABLE FOR FUTURE APPROPRIATORS.

An appropriate right is required for water on non-trustian land and for storage of water. Generally, appropriators have been required to obtain a permit and license from the State. There is a surplus not needed by riparian users. Since 1914, new appropriators have been required to obtain a permit and license from the State.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed. Water previously stored by others, return flows from use of groundwater, or other "foreign" water to the natural stream system.

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the source of supply by an intervening parcel without reservation of the riparian right to the severed parcel.

Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, or return flows from use of groundwater.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus

to obtain a permit and license from the State. Since 1914 new appropriators have been required not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

Statement of Water Diversions and Use must be filed by riparian and pre-1914 appropriative water users. The filing of a statement (1) provides a record of water appropriations the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (2) assists the State to determine if additional use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (3) assists the State to determine if additional information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include:

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have "Information Pertaining to Water Rights in California", "Water Rights for Stockponds Constructed Prior to 1969", "Water Rights in California", "Statement of Water Diversions and Use",

"Appropriation of Water in California",
